THREE COMPANIES IN WALES WIN PLACES ON LEAGUE TABLE OF BRITAIN'S FASTEST-GROWING SME EXPORTERS

Published this weekend, the 5th annual **Sunday Times WorldFirst SME Export Track 100** league table ranks Britain's small and medium-sized private companies with the fastest-growing international sales.

The three companies headquartered in **Wales** (compared to four last year) include two new entrants to the league table. Their international sales have grown by an average of 87% a year over two years to a total of £22m, and together they employ 176 people.

The top-ranked company in Wales is **Laser Wire Solutions**, which is based in Pontypridd and features for the first time. It manufactures laser wire-stripping machinery which it sells to customers ranging from electric vehicle manufacturers to space agencies. International sales grew by an average of 181% a year to £5m in 2017.

Another new entrant in Wales is **Reid Lifting**, whose lightweight portable lifting equipment has been used to move priceless artefacts at the Vatican and Louvre museums. International sales grew to £3.6m last year, and in March it was bought by investor Pure Lifting.

The companies in Wales appear with well-known businesses from around Britain, including online jewellery brand **Missoma**, popcorn maker **Joe & Seph's**, and coffee shop chain **AMT Coffee**. The latest league table shows that despite the ongoing uncertainty surrounding Brexit, Europe continues to be the most important overseas market with more than four fifths of companies (85) selling there. However, they are looking further afield for future growth – 82 companies are targeting future expansion outside of Europe.

The SME Export Track 100 is sponsored by **WorldFirst**, **DHL Express** and **Heathrow Airport**, and is supported by the **Exporting is GREAT** campaign. It is compiled by **Fast Track**, the Oxford-based research and networking events firm.

Jonathan Quin, CEO and co-founder at WorldFirst, the title sponsor, commented:

“At WorldFirst we'd like to be the first to congratulate all the businesses that feature on this year's top 100. International markets present tremendous opportunities for UK businesses and the rewards of being a successful exporter are clear from the growth demonstrated by all the businesses here. That said, there are challenges and risks too and so we should also recognise the brave and committed leadership that has got them to this point.”

Liam Fox, Secretary of State for International Trade, commented:

“SMEs are fundamental to achieving our target of increasing exports as a percentage of GDP to 35%, so it is vital we give them the recognition they deserve. The exporters listed in this year's SME Export Track 100 are pioneers whose example should be followed by ambitious businesses across the UK.”

Notes for editors

Fast Track has published league tables of the UK's top-performing private companies with **The Sunday Times** for the past 22 years. The company was founded and is run by Dr Hamish Stevenson, who also holds an associate fellowship at Green Templeton College, Oxford University.

League table criteria

Companies have to be registered in the UK and be independent, unquoted and ultimate holding companies. International sales growth is measured by compound annual growth rate (CAGR) over the latest two financial years. Annualised international sales have to be greater than £150,000 in the base year, exceed 20% of total sales in the latest year, and show a rise from the previous year. Companies have to be making an operating

profit in their latest year. Recruitment and payroll firms are required to achieve gross profits greater than £5m in their latest accounts.

Excluded companies include those with total sales of more than £25m (covered by our sister league table, International Track 200), pure property developers, financial trading companies and LLPs.

The research was carried out by Fast Track between January 2019 and May 2019. Most of the companies were interviewed by telephone or visited by the Fast Track research team. The research is based on the limited available data on international sales. Most small firms file abbreviated accounts, whilst others may not disclose geographical sales. For this reason, sales and international sales figures for many companies are not available. There may, therefore, be omissions.
